6. All screening requirements for military personnel outlined in this memorandum must be met prior to appointment to a recruiting or training cadre position and upon reassignment to another designated position identified in reference 1c.

7. Methodology.

a. Each State Adjutant General will assign the appropriate unit(s) to establish a State Recruiting and Training Cadre Suitability representative to collect local level screening results for Soldiers nominated to serve in, or currently serving in recruiting and training cadre positions.

b. The two phases of the screening process (Local/State and Centralized/Federal), must be conducted consecutively. Appeals and rebuttals will be addressed at the conclusion of both phases. The appeal, rebuttal and suspension processes can be found in enclosure 1 of this memorandum.

(1) Local/State screening.

(a) Soldiers must declare or update any issues which may prevent them from being approved for appointment by completing HRR Form 600 (Recruiting and Training Cadre Suitability Questionnaire).

(c) The State Recruiting and Training Cadre Suitability representative will ensure a medical record review is conducted to verify the Soldier has an Army Physical Profile Serial System code of 1 for psychiatric and no indication of derogatory information.

(d) Commanders will verify with local security managers that all personnel nominated to designated positions have a favorable National Agency Check with Local Agency Check and Credit (NACLC), Tier 3 investigation or higher background investigation.

(e) The State Recruiting and Training Cadre Suitability representative will conduct a search for the Soldier's name on the National Sex Offender Public Website (<http://www.nsopw.gov>). The Recruiting and Retention Commander (RRC), will print and sign a copy of the search results.

(f) Commanders will ensure all local/State screening requirements are complete before submitting names for centralized screening.

(2) **Centralized/Federal screening.** The federal screening process begins once the local/State level screening is complete and the Federal request (enclosure 2) has been submitted to RSB. The Annex H submission process includes:

(a) Forward centralized/Federal screening requests to the Suitability Compliance Officer via encrypted email.

(b) All screening requests must contain full name, rank, State, and social security number.

(c) A memorandum, (enclosure 3) signed by the RRC, verifying the completion of local/State checks. A single memorandum listing the names of individuals with favorable local/State checks is acceptable.

(3) The RSB will review the documents for accuracy and completeness. The Federal screening process will not begin for any service member that does not have a signed State screening memorandum and copy of their social security card.

(4) Recruiting Commands are responsible for ensuring screening packets are complete, accurate and submitted on time to the RSB. Failure to adhere to the above standards will result in processing delays.

All four of these national level screening results are checked against the list of disqualifying conditions as outlined in reference 1b.

(6) Upon completion of the above mentioned checks, Special Actions Personnel Division, (ARNG-HRP-R), will identify all personnel as having a Type I, Type II, or Type III offense, and forward the findings to the RSB, Strength Maintenance Division (ARNG-HRR-I). The RSB will notify the State of the findings.

(7) The RRC will complete the HRR Form 601-1 (Recruiting and Training Cadre Suitability Checklist) at the end of the screening process for each Soldier performing recruiting and training cadre duties.

8. Rescreening Procedures. A rescreening is required in order for Soldiers to be retained in suitability positions.

a. Soldiers serving in designated positions will be rescreened every 3 years from the date of their initial assignment to a recruiting or training cadre position. The rescreening process includes the same screening requirements as outlined in paragraph 7. Rescreening will search records for the 5 years preceding the rescreening date. Disqualifying information will subject a Soldier to suspension and potential disqualification from a designated position.

b. A separate Annex H is required when listing individuals that require a rescreening. Rescreening requests will be submitted 180 days before expiration of the Soldier's current screening.

c. Rescreening requests for currently expired screenings must be submitted no later than 1 December 2019.
