PROCEDURES

1. GENERAL

Incentives are implemented in those situations where other less costly methods have proven inadequate in supporting unit and skill staffing requirements. This policy in conjunction with AR 601-210, NGR 600-7 and the ARNG SRIP Matrix prescribes eligibility criteria, procedures, and standards for administering the annual ARNG SRIP for FY20. This policy will supersede all previous SRIP polices, guidance, instructions, Montgomery GI Bill-Selected Reserve (MGIB-SR) Kicker policies and Education Incentive Operation Messages (EIOMs) except for EIOMs published after the effective date of this FY20 SRIP and their applicable references.

Reenlistments/extension will be performed IAW NGB-ARH Policy Memorandum 09-026 (13 Aug 09), Reenlistment/Extension policy, unless specified within the eligibility criterion of each REB incentive type. Incentives are subject to suspension at any time and any updates or changes to this policy will be published in an EIOM. Although the ARNG attempts to list all eligibility requirements within the SRIP policy, additional requirements may be found in NGR 600-7. Any discrepancies will be provided to ARNG-HRM-I for dispositioning or additional instructions. The ARNG MEPS Guidance Counselor is responsible for ensuring eligibility criterion is met prior to contracting any incentive and obligating the ARNG to any unauthorized funds. This policy, EIOMs and previous policies are posted in the G1 ARNG portal at: https://g1arng.army.pentagon.mil/Policies/EIOM/Pages/Default.aspx.

2. APPLICABILITY

a. The policy applies only to individuals entering or currently serving in an active status within the ARNG Selected Reserve. This program, however, does not apply to Active Guard Reserve (AGR) or Dual Status Military Technicians (MilTechs) per AR 601-210. (Exception as noted for 79T AGR Recruiting and Retention NCOs (RRNCO).

b. All individuals that may qualify for an incentive must fully process through the Military Entrance Processing Station (MEPS). (Exceptions: Soldier transitioning from Active Duty (AD) to Reserve Component (RC) and current ARNG Soldiers serving in an active status).

c. Applicants applying for or current members in Modified Table of Organization and Equipment (MTOE) units, Special Forces, Urgent, and Medical Table of Distribution and Allowances (TDA) units will be processed in conjunction with Enclosure 6 (ARNG SRIP Matrix) and any additional eligibility requirements addressed in Enclosure 4 for each specific incentive. For the purpose of incentives “Urgent” units will refer to Focused Readiness Units, Urgent Force Pool Units, Cyber, and SFAB units.
d. Soldiers with a last discharge period as an ARNG member and who were fully eligible to extend, but separated instead are not authorized any incentive if within 365 days of their separation date.

e. An officer or enlisted member is not eligible for an incentive if the individual was previously discharged or released from active duty or military service in an active status based on a determination of misconduct, substandard duty performance, or moral or professional dereliction.

3. REQUIREMENTS

a. System access: One of the management tools critical for administering the ARNG SRIP is GIMS. Each GIMS user must request either Privileged or Non-Privileged level access. All users of GIMS are required to complete initial Information Assurance (IA) awareness orientation as a condition of access and thereafter must complete annual IA refresher awareness. Privileged users who are not appropriately certified within 12 months of assignment to a position, or who fail to maintain their certification status, shall be reduced to Non-Privileged level access. The State IA Manager will retain training certificates for all users within his or her domain to include ensuring all require recertification. It is also recommended for the applicable incentive oversight personnel to obtain “read-only” access in Defense Joint Military Pay System (DJMS) for incentive establishment and pay monitoring purposes.

b. Privileged Level Training Requirements: The training courses below meet the requirements for privileged level access to GIMS. While the Comptroller’s Accreditation and Fiscal Law (FL) Course is highly recommended, the FL certificates that are Judge Advocate General (JAG), Comptroller or United States Property and Fiscal Office (USP&FO) led will be accepted for meeting the revalidation requirement. The Comptroller’s Accreditation and FL Course Certificate is only valid for 3 years. If it has been 3 years since the user last completed the FL course, a new one must be awarded. Failure to have a valid certificate will result in the user being reduced to Non-Privileged level access.

   (2) DD Form 2875 (System Authorization Access Request)

   (3) IM Course, Phase 2, Resident. Length: 40 hours/5 days. Enrollment and training information:  https://www.atrrs.army.mil/atrrscc/ Training is located at the Professional Education Center (PEC), Camp Robinson, North Little Rock, Arkansas.

   (4) GI Bill Manager Course, Resident. Length: 40 hours/5 days. Enrollment and training information at email:  arng.esc@mail.mil.

   (5) Education Services Course, Resident. Length: 40 hours/5 days. Enrollment information is available at:  http://www.pec.ng.mil/
c. Non-Privileged Level Training Requirements: DD Form 2875 (System Authorization Access Request)

d. Individuals requesting Education Services Officer (ESO) privileged level access must complete requirement 3.b.(1) and (2) and upload the completed certificates to GIMS prior to gaining access. Additionally, the individual must complete requirements 3.b.(3), (4) and (5) within 12 months of the date of privileged level access approval or his or her access will be reduced to non-privileged.

e. Individuals requesting IM privileged level access must complete requirement 3.b.(1) and (2) and upload the completed certificates to GIMS prior to gaining access. Additionally, the individual must complete requirement 3.b.(3) within 12 months of the date of privileged level access approval or his or her access will be reduced to non-privileged.

f. Individuals requesting GI Bill (GI-P) privileged level access must complete requirement (1) and upload the completed certificate to GIMS prior to gaining access. Additionally, the individual must complete requirement 3.b.(4) within 6 months of the date of privileged level access approval or his or her access will be reduced to non-privileged.

g. One person from each State IM office must attend the Advanced IM course annually. States are required to send one State IM (Primary or Alt) or ESO to the Advanced IM Course annually. Personnel must have completed the IM Resident Course and be in position at least 6 months before attending the Advanced IM course. Personnel that are retiring or moving to another position outside the IM office should send another IM to the Advanced IM Course within 180 days of notice of reassignment. State Incentive offices who fail to revalidate annually will have their GIMS access rights suspended until this has been completed and verified by the proponent, Incentives Review Team (IRT). For future auditing purposes, each State ESO is responsible for maintaining copies of all training certificates for each person with privileged level access for his or her State.

h. GIMS Annual Recertification Requirements:

(1) State IM’s or ESOs: Documents required are the DL course, IM resident Course, DD Form 2875, and FL certificate as listed in 3.b. above. The Advanced IM course does not replace the IM Basic Resident course. If processing Unit Bonus Eligibility Report (UBER) bin, a current G-1 memo within the last 12 months will be required.

(2) GI Bill Managers: Required documents are the GI Bill Manager’s resident Course and FL certificate. The certificates must be dated within the past 3 years.

18. POSITION VACANCIES

General: IAW NGR 600-7, paragraph 1-9 and AR 601-210, paragraph 10-3, d. incentives may only be authorized to those identified units for FY20 within Enclosure 6 when defined within the specific incentive type. Positions contained in a derivative UIC are not considered a valid vacancy for incentive purposes only. The Automated Unit Vacancy System (AUVS) is the system of record for determining valid vacancies for incentives, except for incentives offered at the time of reenlistment/extension. Soldier’s grade must be commensurate with position grade or in position no more than one grade above. No manually built vacancy or excess positions (coded 9993) is authorized an incentive. Exceptions outside of 09S, 09R, 09W, 09L will be submitted to ARNG-HRM-I for approval.

19. CONTINUED RECEIPT OF INCENTIVES

a. General: Continued receipt of incentives is IAW ARNG SRIP FY20, DoDI 1304.31, DODI 1304.34, DODI 1205.21, AR 601-210, AR 621-202 and NGR 600-7. Any immediate updates or continued receipt rules not listed in NGR 600-7 are listed below or published by EIOMs. ARNG-HRM-I is the authority for any discrepancies or disputes.

   (1) An Officer changing AOC due to normal career progression can retain his or her incentive provided he or she remains within the same Career Management Field (CMF) as the primary position holder for the entire length of the service obligation. Moves based upon unit relocation, reorganization, transformation or the convenience of the government are the only authorized exception (Note: This does not apply to Warrant Officers). Transfer orders must be uploaded into GIMS.

   (2) Soldiers changing their MOS due to normal career progression (per DA PAM 611-21) remain eligible to retain the incentive(s) for which contracted if they are DMOSQ, assigned as the primary position holder for the entire contracted term of the incentive and are not coded excess (9993). Exceptions to this rule are addressed in Enclosures 7 and 8. Substantiated involuntary moves are the only authorized exceptions and transfer orders must be uploaded into GIMS. Soldiers who voluntarily transfer for promotion purposes to another MOS that is not in the same incentive contracted CMF are not considered eligible for continued receipt of the incentive(s). This change supplements the requirements set forth within AR 601-210, paragraph 10-5 on continued receipt of incentives due to normal career progression.

   (3) Soldier who transfers to a TDA unit for promotion purposes and remains DMOSQ for the MOS which is selected.

   (4) Soldiers electing to remain in the deployed (crossed-leveled) MOS has 24 months from REFRAID date plus future deployment periods to become DMOSQ.

   (5) A Soldier in an active status who voluntarily/involuntarily transfers to an Urgent Unit identified by the ARNG Base Operation Plan and fills a valid vacant position or excess position IAW the ARNG Authorized Over-Strength Policy. (Not applicable to a Soldier pending IADT). Over-strength positions may retain incentive eligibility - see ETP memo, dated 9 October 2019.
This policy also applies to 25 and 35 Series Soldiers transferring to Cyber Units who do not report DMOSQ.

(6) Accepts a One Time Occasional Tour (OTOT), the Soldier will remain eligible for receipt of incentive. The tour may not to exceed 1095 days, or accept an AGR position upon the end of the tour.

(7) Soldiers assigned as overstrength /or excess with an incentive in an URGENT or FRU being voluntarily or involuntarily transferred due to unit expiration of Urgent or FRU may retain their incentive(s) so long as they remain DMOSQ in the incentive contracted MOS. Soldiers who require reclassification shall be terminated without recoupment effective the date of transfer. Soldiers who remain in an overstrength /or excess position upon transfer are not eligible to extend for incentives.

b. Additional continuation rules for the MGIB-SR Kicker are outlined in the GI Bill Manager’s SOP.

c. Soldiers with an incentive agreement who enter the AGR program with an effective date of 1 October 2019 through 30 September 2020 must continue to drill in or hold an AGR position of the same MOS for which the incentive was contracted. The State Incentive Manager will initiate all remaining payments due to the Soldier prior to the effective date of entering the AGR program.

20. SUSPENSION / REINSTATEMENT OF INCENTIVES

a. General: Suspension/reinstatement requirements for incentives are IAW DoDI 1304.31, DoDI 1304.34, DoDI 1205.21, AR 621-202, AR 601-210 and NGR 600-7. Any immediate updates or suspension/reinstatement rules not listed in NGR 600-7 are listed below or will be published by EIOMs. ARNG-HRM-I is the authority for any discrepancies or disputes.

b. Suspension rules for the MGIB-SR Kicker are outlined in the GI Bill Manager’s SOP.

21. TERMINATION OF INCENTIVES

a. General: Termination requirements for incentives are IAW DoDI 1304.31, DoDI 1304.34, DoDI 1205.21, AR 621-202, AR 601-210 and NGR 600-7. Any immediate updates or terminations rules not listed in NGR 600-7 are listed below or will be published by EIOMs. ARNG-HRM-I is the authority for any discrepancies or disputes.

(1) Termination with Recoupment:

(a) An Officer failing to serve in the contracted CS AOC for the entire length of the incentive agreement (except for normal career progression and for the convenience of the government). The effective date of termination is the date annotated on the Officer's branch transfer order.
(b) A Soldier voluntarily changing his or her CS MOS during the contractual obligation, unless assigned as a 09R (SMP Cadet), 09S (OCS Candidate) or 09W (Warrant Officer Candidate). The effective date of termination is the date of transfer.

(c) Coded with SIDPERS excess code “9993” Exceptions to this rule are addressed in Enclosure 7 & 8. The effective date of termination is the date the Soldier was coded/reassigned as excess. Note: Soldiers enlisting 09S are exempt while enrolled in OCS. Once commissioned, they may not be coded excess for the duration of the contractual period of the 09S contract.

(d) A Soldier separating from the ARNG for enlistment into any AC (Regular Army, Navy, Marines, Air Force, or Coast Guard) and receiving an enlistment incentive, or when the period of service is less than the Soldier’s current ARNG remaining drilling obligation. The effective date of termination is the ARNG discharge date.

(e) An Officer/Soldier affected by an involuntary move based upon unit relocation, transformation, reorganization, convenience of the government or mobilization will have 24 months plus periods of deployment from the date of transfer to become DAOCQ/DMOSQ in the new AOC/MOS and is eligible for future scheduled payments. An Officer/Soldier who fails to become DAOCQ/DMOSQ within 24 months plus periods of deployment will have the incentive terminated effective the date of transfer.

(f) An Officer/Soldier voluntarily retiring from active status prior to completion of the incentive contractual term. The effective date of termination is the date on the ARNG discharge date.

(g) An Officer/Soldier leaving the AGR or MilTech program to return to a Traditional/MDAY-only status who subsequently contracts for an incentive while assigned in MDAY status will have that incentive terminated if he or she fails to serve at least 50 percent of the contractual obligation period (from contract start date) prior to reentering the AGR or MilTech program. The effective date of termination is the day before the AGR or MilTech start date as noted on the AGR order, SF-50, SF-52, or HRO memorandum. The MGIB-SR Kicker will be suspended when the Officer/Soldier enters the AGR or MilTech program.

(h) An Officer entering into any AC or SELRES (other than the USAR) with a current Officer ARNG incentive. The effective date of termination is the ARNG discharge date.

(i) A Soldier medically qualified to transition from AD to RC, but upon arrival to unit of assignment is no longer medically qualified and is boarded for medical discharge for reason(s) not based upon the service performed within the ARNG. The effective date of termination is the contract start date.

(2) **Termination without Recoupment:**

(a) If the OTOT exceeds 1095 days (cumulative) or the Soldier accepts an AGR position and the Soldier serves at least one day of the incentive contract, the incentive is terminated
without recoupment effective the date exceeding 1095 or the day prior to entering the AGR status.

(b) An Officer must successfully complete Officer Basic Course (OBC)/Warrant Officer Basic Course (WOBC) in his or her designated OAB AOC/MOS within 24 months of the date of commission or appointment. If the Officer does not, the effective date of termination is the contract start date unless previously discharged, in which case the contract will be terminated effective the ARNG discharge date.

(c) A NPS recipient failing to ship within 365 days of his or her enlistment date. Incentives for a Soldier failing to ship within 365 days will be terminated effective the contract start date. Incentives for a Soldier discharged prior to the 12 month period will be terminated effective the ARNG discharge date.

(f) A Soldier who serves at least 1 day past the initial contract start date and receives an OAB CN. The effective date of termination is the day prior to being commissioned as an Officer/Warrant Officer.

(g) An Officer/Soldier leaving the AGR or MilTech Program who subsequently contracts for an incentive while assigned in an active status and who served more than 50 percent of the incentive contractual agreement (from contract start date) before returning to the AGR or MilTech Program is eligible to retain all previous payments. The effective date of termination is the day before the AGR or MilTech start date. The MGIB-SR Kicker will be suspended when the Officer/Soldier enters the AGR or MilTech program.

(h) An Officer/Soldier that contracted for an incentive while on AD in the RA and failed to maintain the physical requirements to remain DAOCQ/DMOSQ in the AOC/MOS between the contract signatures and start date. The effective date of termination is the ARNG contract start date.

(i) Individuals who do not pass the Occupational Physical Assessment Test (OPAT) for the MOS enlisted and having been offered an incentive will have the incentive terminated effective the contract start date.

b. Termination rules for the MGIB-SR Kicker are outlined in the GI Bill Manager’s SOP.
22. CONTRACT TERMINATION AND SETTLEMENT PROCESS GUIDANCE

a. Purpose. Provide guidance for the resolution of incentive eligibility issues when bonus contracts are found to not be in compliance with law, regulations or policy. This guidance also provides the process for terminating an incentive contract with or without recoupment.

b. Program Management. The IM is responsible for the SRIP, to include establishing, monitoring, and payment of each incentive within the program. Montgomery GI Bill (MGIB) Selected Reserve (SR) Kicker, all Loan Repayment Programs (LRP), Federal Tuition Assistance (FTA), and Army Medical Department (AMEDD) incentives issues are ARNG-HRM excluded from this guidance. Guidance for resolving issues in these programs will be provided separately.

c. The settlement process uses four categories to organize violations. The types and definitions of the four categories are:

(1) State Level Authority- Incentive issues caused by incorrect Standard Installation/Division Personnel System (SIDPERS) coding, inaccurate orders issuance and missing documents in the interactive Personnel Electronic Records Management System (iPERMS) or Guard Incentive Management System (GIMS) should be corrected at the State level. An Exception to Policy (ETP) is not required for these issues.

(2) The ARNG Level Authority- Incentive issues that are not correctable by the State, and the State elects to submit a Soldiers request for an ETP to ARNG. ARNG can make approval determinations when the incentive issue is a violation of only NGR 600-7, or the applicable ARNG Incentive Policy. If the violation is against higher authority regulations then ARNG will follow that regulation.

(3) The Department of the Army (DA), Office of Secretary of Defense (OSD), or Statutory Authority- Incentive issues relating to law, Department of Defense Instruction (DoDI), Department of Defense (DoD) regulations and policy, and DA policy. NGB has been delegated limited authority to waive the requirement to recoup funds already paid to the Soldier in some cases involving DA Policy. While an ETP cannot always be approved to waive the requirement to terminate, the denied ETP may provide guidance to the State IM to terminate without recoupment. Only DA and/or OSD have authority to grant relief from termination for issues in this category.

(4) Suspected Fraud, Waste or Abuse- Incentive contracts that demonstrate evidence of improper administration permitting erroneous incentive payments which are subject to recoupment by federal statute(s) and/or DoD and Federal Management Regulations (FMR). Any alteration to an incentive addendum will be treated as suspected fraud. All cases will be reported to the NGB program manager and thoroughly investigated by the State to determine appropriate legal disposition. Decisions will be reported to the NGB Program Manager.

d. Erroneous Overpayments- Erroneous overpayments are defined as payments made in excess of the Soldier's contracted payment amount, in excess of limits established by Law, and/or DoDI/Army Regulations/ALARACTs, or payments that were not legal and proper when
made. Erroneous overpayments must be recouped as soon as discovered. There is no ETP process authorized for erroneous overpayments however, exceptions may apply to the SLRP through the voucher process.

e. Settlement process for state level authority corrections. State SRIP personnel are not authorized to submit an incentive for payment processing until the issues identified in paragraph 19c(4) have been corrected in SIDPERS, iPERMS and GIMS as required.

f. Termination Defined

(1) Termination without Recoupment: Termination without recoupment means the Soldier is entitled to all payments due to the Soldier prior to termination date. As of the termination date, there will be no additional payments made to the Soldier and there will be no recoupment of funds already paid to the Soldier IAW the contract.

(2) Termination with Recoupment: Termination with recoupment means the Soldier is entitled to a prorated incentive amount based on the number of months the Soldier served prior to the incentive termination date. The Soldier may be required to pay funds back to the government or the Soldier may be entitled to a payment.

(3) Relief from Recoupment: Termination with recoupment is the initial guidance. However, the decision making authority has determined that recoupment of funds paid IAW the contract is contrary to a personnel policy or management objective, against equity and good conscience, or contrary to the best interest of the United States. The Soldier will not be required to repay funds already received IAW the contract and the contract will be terminated without recoupment. Note: Erroneous overpayments do not qualify for relief from recoupment.

g. Termination of a bonus contract. Once a bonus contract issue has been identified that requires termination, with or without recoupment, the State/Territory will follow the instructions below:

(1) Termination when Soldier failed to complete Initial Active Duty Training (IADT):

(a) The IM will initiate termination of the bonus without recoupment in GIMS upon receipt of the discharge orders. The IM will enter comments indicating reason for termination, select termination without recoupment with contract start date as effective date of termination and ensure all fields in the termination processing screen are correctly completed. The termination must be processed at State level through both the 1st and 2nd reviews and then immediately forwarded to the next level for review.

(b) ETPs are not authorized for these contracts and Soldier notification is not required for the termination.

(2) Termination due to ineligibility or status change prior to Contract Start Date:
(a) This section applies to situations where the Soldier is ineligible for the incentive prior to contract start date IAW regulations or law and no payments have been made. For example, Soldier is discharged prior to contract start date, accepts an AGR position, military technician position, or commission prior to contract start date.

(b) If the bonus has not been established in the Defense Joint Military Pay System - Reserve Component (DJMS-RC), the IM will complete an Administrative Correction Request (ACR) in GIMS to move the contract to an Approved Pending Validation status. Once the ACR has been completed, the IM will invalidate the bonus. If the bonus has been established in DJMS-RC, the IM will initiate the termination process in GIMS and immediately forward the termination through both the 1st and 2nd reviews to the next level for review. The contract will be terminated effective the date of the contract start date.

(c) ETPs are not authorized for these contracts and Soldier notification is not required for the termination. If the Soldier received payment, the Soldier must be notified that it was an erroneous overpayment and will be recuperated.

(3) Termination without recoupment and no additional payments are scheduled or authorized:

(a) The IM will initiate termination of the bonus without recoupment in GIMS. The IM will enter comments indicating reason for termination, select termination without recoupment and ensure all fields in the termination processing screen, to include the effective date of termination, are correctly completed. The termination must be processed at State level through both the 1st and 2nd reviews and forwarded to the next level for review.

(b) The IM will notify the Soldier and the Soldiers current unit of assignment that the bonus will be terminated without recoupment using the DA Form 4875 (preferred document) or the Notification of Incentive Termination Memorandum (Enclosure 15). Proof that notification was sent is required or remarks must be entered in GIMS.

(c) The IST will confirm the validity of the terminated bonus and forward to ARNG-HRM-I for final review and processing.

(d) The IM will monitor the reject report weekly and will ensure all transactions that rejected are corrected and re-queued as required.

(4) Termination with or without recoupment when additional payment(s) are scheduled or authorized:

(a) The IM will initiate termination of the bonus with or without recoupment in GIMS. The IM will enter comments indicating reason for termination, select termination with or without recoupment and ensure all fields in the termination processing screen, to include the effective date of termination, are correctly completed. The termination will remain at the 1st IM level until the notification process is complete.
(b) The IM will notify the Soldier and the Soldier's current unit of assignment of the issue requiring bonus termination and the ETP option using the DA Form 4856 (preferred document), or the Notification of Incentive Discrepancy Memorandum (Enclosure 15). In cases where the Soldier is no longer in the ARNG, and cannot be notified by any other means then the memorandum will be mailed to the Soldier's last known Home of Record (HOR) address in SIDPERS by certified mail. Proof that notification was sent is required or remarks must be entered into GIMS. The IM will adhere to the following guidelines based on the Soldier's response or failure to respond:

(i) If the Soldier fails to respond within 45 days of notification, termination will be processed with or without recoupment IAW policy. The IM will process the termination through the 2nd review and forward to the next level for IST review.

(ii) If the Soldier responds within 45 days of notification electing not to submit an ETP, the termination will be processed with or without recoupment IAW policy. The IM must upload the counseling statement/sworn statement or other documentation received indicating the Soldier declines an ETP. The IM must enter detailed remarks in GIMS and process the termination through the 2nd review and forward to the next level for IST review.

(iii) If the Soldier responds within 45 days of notification electing to submit an ETP, the IM must enter remarks in GIMS and request the ETP. Termination of incentive in GIMS will be suspended until final disposition of the ETP.

(5) Requesting an ETP:

(a) The IM will assist the Soldier in preparation of an ETP request by ensuring the following documentation is collected for submission:

(i) Soldier's bonus addendum.

(ii) Soldier's statement. This is the Soldier's official request and desired disposition of their issue.

(iii) State Military Personnel Officer (MILPO) memorandum requesting the ETP. This is the MILPOs official stance on the issue and their desired disposition of the Soldier's issue. Any memorandum not signed by the MILPO must have a delegation of signature authority order included with the memorandum and may not be delegated below Deputy MILPO level.

(iv) Documentation related or supporting the desired disposition to the ETP.

(b) The IM must request from the Soldier any related documents that are not in the Soldier's Army Military Human Resources Record (AMHRR) in iPERMS or in GIMS. If the Soldier provides the requested documents within 30 days, the IM will submit an ETP on behalf of the Soldier. The IM may allow the Soldier additional time to submit the required documents if he/she determines that circumstances warrant it.
(c) If all supporting documentation required for submission of the ETP is in the Soldier's AMHRR, and the reason for the ETP is administrative errors by someone other than the Soldier, such as missing witness or service representative signatures and/or dates, the IM can submit an ETP on the Soldier's behalf. In these cases, a Soldier statement will not be required as part of the ETP packet.

(d) The IM will submit and track the ETP request to ARNG-HRM-I through GIMS. Any ETP request submitted outside of GIMS will be returned without action. Each ETP will be considered on a case by case basis.

(e) If the Soldier elects to submit an ETP, but fails to provide the requested documentation within the authorized time frame, the IM must enter detailed remarks in GIMS and process the termination through the 2nd review to the next level for IST review.

(6) If the Soldier fails to respond to the discrepancy notification and the incentive has been terminated, with or without recoupment, the Soldier is no longer eligible to file for an ETP. The Soldier may file a claim with the ABCMR if he or she disagrees with the termination.

h. Disposition of ETP.

(1) The IM will monitor both the "Disposition Complete" and "Returned to State by NGB" bins in the GIMS ETP center. If the ETP is returned to state without action, the IM will address as required. Once the ETP disposition memorandum has been signed and returned to the Disposition Complete bin, the IM will action as follows:

(a) Relief from Termination or Retention of the Incentive is defined as approval for the bonus to remain "Active". The bonus contract will be honored as noted in the approved ETP and the remaining payments will be made per payment schedule provided the Soldier is otherwise qualified. Once a bonus contract has been granted relief from termination, the IM will complete the following:

(i) Reinstate the scheduled payment in GIMS by reversing the on hold payment.

(ii) Submit an ACR to move the contract from Terminations processing to Established and Printed status.

(iii) Send the Soldier a memorandum providing the results of the ETP request using the template provided in Enclosure 15. Attach a copy of the ETP disposition memorandum.

(iv) Forward the ETP disposition memorandum to the G1 for uploading into the Soldier's AMHRR in iPERMS.

(b) Termination without Recoupment the IM will complete the following:

(i) Send the Soldier a memorandum providing the results of the ETP request using the template provided in Enclosure 15. Attach a copy of the ETP decision memorandum.
(ii) Forward the ETP decision memorandum to the G1 for upload into the Soldier's AMHRR in iPERMS and coordinate with SIDPERS to ensure that orders reflecting SRIP termination status are correct.

(iii) Process the termination at State level through both the 1st and 2nd reviews and forward to the next level for IST review. The IM will enter detailed comments indicating reason for termination, select termination without recoupment and ensure all fields in the termination processing screen are correctly completed.

(c) Termination with Recoupment the IM will complete the following:

(i) Send the Soldier a memorandum providing the results of the ETP request using the template provided in Enclosure 15. Attach a copy of the ETP decision memorandum.

(ii) Forward the ETP decision memorandum to the G1 for upload into the Soldier's AMHRR in iPERMS and coordinate with SIDPERS to ensure that orders reflecting SRIP termination status are correct.

(iii) Process the termination at State level through both the 1st and 2nd reviews and forward to the next level for IST review. The IM will enter detailed comments indicating reason for termination, select termination with recoupment and ensure all fields in the termination processing screen are correctly completed.

(2) If the GIMS processing method includes CMS, the termination transaction will be forwarded to the States Manual TL bin after approval by NGB. The IM must submit a Case Management System (CMS) case, IAW State policy, routed to the ARNG-HRM-I CMS inbox (ARNG-GSE-(SRIP Incentives)). The IM must ensure the following documents are included:

(a) Completed DD Form 139.

(b) Copy of enlistment/reenlistment/extension document.

(c) Copy of bonus addendum.

(d) Copy of ETP Determination (If Applicable)

(i) Upon notification from the IM or via CMS that a debt is being processed, the USPFO will monitor DJMS-RC to ensure the bonus recoupment amount transfers to an accounts receivable file in DJMS-RC. The USPFO will send a Notice of Indebtedness to the Soldier identifying the debt reason(s) and amount and the process for seeking relief.

(ii) If the Soldier notifies the IM or USPFO that they have filed a claim with the Army Board for Correction of Military Records (ABCMR), the IM or USPFO should initiate a CMS case requesting that the debt be suspended pending ABCMR determination. The Soldier must provide proof that an ABCMR claim has been filed and that must be uploaded as part of the CMS request.
(iii) If the GIMS processing method includes OOS, the transaction will be forwarded to the States Manual TL bin. The IM must submit a debt packet to the DFAS Debt and Claims Office (Out of Service Debt) IAW Enclosure 13.

i. Army Board for Correction of Military Records. If the Soldier is not satisfied with the final disposition of the ETP request or believes there is an error or injustice, the Soldier may file a claim with the ABCMR IAW paragraph 1.k. For more detailed information and to apply for further review, the Soldier must apply directly with ABCMR at http://arba.army.pentagon.mil.

23. DISPOSITION OF INCENTIVES FOR A DECEASED MEMBER

a. General: Upon the death of a Soldier, all bonus entitlements due to the Soldier’s beneficiary are processed by DFAS in coordination with the Casualty Assistance Office (CAO) and/or United States Property and Fiscal Office (USPFO). The State SLRP Manager/IM is responsible for providing a copy of the incentive contract to the State CAO or the Military Pay section of the USPFO. The DFAS will determine the beneficiary’s entitlement and will process all payments due.

(1) Bonus contract(s) record must be completed in GIMS as follows:

(a) If the Soldier has an active bonus contract that has been paid in full, with no payments remaining and with all payments processed before the Soldier’s death, no action is required unless the contract was already in the termination process.

(b) If the contract is in the termination process, submit an Administrative Correction Request (ACR) to move the contract out of “Termination” status and into “Complete” status.

(2) If the Soldier has an active bonus contract with outstanding payments remaining, address as follows:

(a) If the date of entitlement is prior to the Soldier’s date of death, the State IM must submit the payments in GIMS using the processing method Out of Service (OOS) with a comment that the payments are due to the death of the Soldier. Once the payments are approved, they will move into the “OOS/ Case Management Study (CMS) Manual Processing” bin. Once the payments are in this bin, the IM must mark them as complete.

(b) If the date of entitlement is after the Soldier’s date of death, the IM must submit an ACR requesting that the dates of entitlement for all payments due after the Soldier’s date of death be changed to the day before the date of death. Once the ACR is approved, the IM must submit the payments in GIMS with the processing method “OOS” with a comment that the payments are due to the death of the Soldier. Once the payments are approved, they will move into the “OOS/CMS Manual Processing” bin. Once the payments are in this bin, the IM must mark them as complete.

b. The SLRP contract record must be completed in GIMS as follows:
If the loans under the SLRP contract are Federal loans, they will be discharged (i.e., forgiven) when the lender/lenders receive the death certificate from the Soldier’s family. No prorated or additional payments are authorized.

c. If an Officer/Soldier has an approved bonus or SLRP contract with a contract start date after the date of death, the State SLRP Manager/IM must submit an ACR requesting the contract be moved to “Approved Pending Validation” status. Once the ACR is approved, the State SLRP Manager/IM must invalidate the contract.

24. **DD FORM 368 – REQUEST FOR CONDITIONAL RELEASE**

**General:** The DD Form 368 is used to process individuals either in an active status of the Selected Reserve to transfer to another military component or assigned to the IRR and requesting assignment to an active status in the Selected Reserve.

(1) Soldiers in an active Selected Reserve status while transferring to the ARNG on a DD Form 368 are not eligible to contract for an incentive. IAW AR 601-210, paragraph 10-5, b. (4). Service members who contracted for a Kicker in another component may only retain the incentive if the Kicker was in an eligible status on the last day the service member was in the losing component.

(2) Individuals assigned to the IRR and require a DD Form 368 for enlistment with ARNG may be eligible for an incentive if meeting all incentive eligibility criteria.

25. **ARNG MEDICAL MANAGEMENT ACTIVITY (MMA)**

**General:** Soldiers in the MMA and listed as 999M are ineligible to extend for incentives, but may continue to receive current incentive payments if otherwise qualified.

ENCLOSURE 7

INCENTIVE GUIDANCE FOR URGENT UNITS

1. **Applicability:** This policy applies only to individuals currently serving in an active status and to those "Urgent" units identified by the ARNG Base Operations Plan. Soldiers may fill any position (including excess). Soldiers affiliating/enlisting, accessing, or reenlisting/extending for the purpose of qualifying for an Active Guard and Reserve (AGR) or Dual Status (DS) Military Technician (MilTech) position, including mobilized Soldiers returning to an AGR or DS MilTech position after Release From Active Duty (REFRAD) and DS MilTechs on Leave Without Pay (LWOP) are not eligible.

2. Soldiers may be processed IAW within one of the following categories:

   a. A Soldier who voluntarily or involuntarily transfers to an "Urgent Unit" may retain their incentive(s). The Soldier must remain DMOSQ upon transfer in order to support the unit's mission. Soldiers are not authorized to reclassify in order to retain an incentive. Soldiers pending Initial Active Duty Training (IADT) are NOT authorized to transfer in order to properly manage training seat availability. Once the Soldier transfers the original terms and conditions of the incentive agreement will be applicable to the Urgent unit/MOS; therefore, the incentive may be terminated with recoupment if an additional transfer is performed without an exception being granted by the appropriate authority (excludes transfers when the Soldier transfers to another Urgent Unit and remaining MOSQ). Soldiers may retain their incentives due to units being re-designated as no longer an “Urgent” unit as long as the Soldier originally contracted for the incentive while the unit was classified as an “Urgent” unit.

   b. A Soldier in an excess position who voluntarily transfers to an Urgent Unit, remains DMOSQ and is otherwise eligible to reenlist/extend may qualify for an incentive. Soldiers are not authorized to reclassify in order to receive an incentive. The Soldier will process their extension/reenlistment IAW reference e. due to the Guard Incentive Management System's inability to process an incentive while a Soldier is in an excess position. ARNG recommends that all reenlistment/extension contracts with incentive eligibility be validated through the State Incentive Manager (IM) or Education Service Officer (ESO) no less than 30 days prior to the Soldiers ETS allowing for coordination with ARNG-HRM-I in executing the incentive addendum(s). The State is responsible for the management of excess positions with Soldiers performing satisfactorily and maintaining medical and dental readiness to support the unit's mission. IAW DoDI, incentives are to assist leaders in sustaining membership and maintaining readiness, not improper management.

   c. A Soldier serving in an excess position within an Urgent Unit may qualify for an incentive up to the established authorized over-strength percentage outlined in the ARNG Over-strength Policy (PPOM 17-005). The State will process the Soldier IAW with guidance listed in 4.b. The State is responsible for the management of excess positions with Soldiers performing satisfactorily and maintaining medical and dental readiness to support the unit's mission. Over-strength positions may retain incentive eligibility - see ETP memo, dated 9 October 2019.
3. This memorandum provides an exception to the position vacancy requirements outlined in the references to only those units identified as Urgent Units by the ARNG Base Operations Plan. An excess position is any position that is not the primary vacancy and IAW ARNG Over-Strength Policy (PPOM 17-005). Units not identified as "Urgent" will continue to follow the position vacancy requirements outlined in the ARNG SRIP. Over-strength positions may retain incentive eligibility - see ETP memo, dated 9 October 2019.
ENCLOSURE 8

INCENTIVE GUIDANCE FOR CYBER UNITS

1. Applicability: This policy applies to individuals accessing or serving in an active status. All Soldiers in an Active Guard and Reserve (AGR) status or Dual Status (OS) Military Technician (Mil Tech) status are not eligible.

2. Soldiers may be processed for incentives IAW any of the following categories:

   a. Enlisted Soldiers who voluntarily or involuntarily transfer to a "Cyber TDA" may retain their incentive(s). The Soldier must remain DMOSQ upon transfer, unless selected for 17 series re-class. Soldiers are not authorized to reclassify in order to retain an incentive (except 17 series). The original terms and conditions of the incentive agreement will be applicable to the cyber unit/MOS upon transfer. Therefore, an incentive may be terminated with recoupment if an additional transfer is performed without an exception being granted by ARNG-HRM (excludes transfers when the Soldier moves to another cyber unit and remains DMOSQ).

   b. A Soldier in an excess position who voluntarily transfers to a Cyber unit, remains DMOSQ (unless selected for 17 series re-class) and is otherwise eligible to reenlist/extend may qualify for an incentive. Soldiers are not authorized to reclassify in order to receive an incentive (except 17 series). The Soldier will process their extension/reenlistment IAW reference b. due to the Guard Incentive Management System's (GIMS) inability to process an incentive while a Soldier is in an excess position. ARNG recommends all reenlistment/extension contracts with incentive eligibility be validated through the State Incentive Manager (IM) or Education Service Officer (ESO) no less than 30 days prior to the Soldier's ETS allowing for coordination with ARNG-HRM-1 in executing the incentive addendum(s). The State is responsible for the management of excess positions with Soldiers performing satisfactorily and maintaining medical and dental readiness to support the unit's mission.

   c. A Soldier serving in an excess position within a Cyber TDA may qualify for an incentive up to the established authorized over strength percentage outlined in reference d. The State will process the Soldier IAW with guidance listed in reference b. The State is responsible for the management of excess positions with Soldiers performing satisfactorily and maintaining medical and dental readiness to support the unit's mission. Over-strength positions may retain incentive eligibility - see ETP memo, dated 9 October 2019.

2. Officers may be processed for incentives under the following:

   a. An Officer who voluntarily or involuntarily transfers to a "Cyber TDA" may retain their incentive(s). The Officer must remain DMOSQ upon transfer (unless selected/identified for 17A/170A re-class). Officers are not authorized to reclassify in order to retain an incentive (except 17 series). The original terms and conditions of the incentive agreement will be applicable to the cyber unit/MOS. Therefore, the incentive may be terminated with recoupment if an additional transfer is performed without an exception being granted by ARNG-HRM (excludes transfers when the Soldier transfers to another Cyber unit and remaining AOCQ).
b. An Officer who voluntarily transfers to a Cyber unit in the ARNG, remains AOCQ, and is otherwise eligible may qualify for an incentive. The Officer's incentive will be processed IAW reference b. This is due to the Guard Incentive Management System's inability to process an incentive while a Soldier is in an excess position. The ARNG recommends that all contracts with incentive eligibility be validated through the State Incentive Manager (IM) or Education Service Officer (ESO). The State is responsible for the management of excess positions with Soldiers performing satisfactorily and maintaining medical and dental readiness to support the unit's mission.

3. The Request Manager for each State must ensure that their cyber unit UICs are built into the Request system as an MTOE unit. This should be done for incentive purposes only.

4. Approved Cyber Units

GUIDANCE FOR CLOSED YEAR SLRP

1. PURPOSE: Provide procedural instructions to states and territories to process closed year payments.

2. APPLICABILITY: This LOI applies to ARNG Service Members (active or out-of-service) who have a closed year incentive payment that meets the eligibility criteria for payment processing.

3. BACKGROUND: In Accordance With (IAW) 31 U.S.C. 1552(a) on September 30th of the fifth fiscal year the account shall be closed and any remaining balance in the account shall be canceled and thereafter shall not be available for obligation or expenditure for any purpose. Additionally, Barring Act 31, U.S.C. 3702(b)(2) has exceptions for consideration for periods of war. In order to be in compliance with applicable laws and regulations, the Incentives Oversight Branch requests submission of closed year payments. DOD FMR Vol 3, Chapter 10 details limitations on the adjustment of obligations in closed year appropriations using a current year appropriation. A closed year payment with a date of eligibility greater than five FYs will require ARNG-HRM and ARNG-RMC authorization before payment processing. Pre-submission requirements are required prior to packet submission.

4. PRE-SUBMISSION REQUIREMENTS:

Due to funding constraints, closed year payments are evaluated upon receipt and a determination will be made as to funding availability in current FY.
b. Simultaneously, upload the Closed Year packet into GIMS for those SMs listed on the Closed Year Spreadsheet. File will be uploaded in a single adobe file under the documents tab for the pertinent incentive. The packet should include all documents listed on the Closed Year Checklist (Enclosure 15).

c. Submit payment to NGB for processing once funding approval is granted from the Army National Guard Personnel Programs, Resources and Manpower Division.

Overpayments were made that were not in compliance with the applicable policy, which results in a required recoupment action. The Voucher process enables states to request reallocation of funds from one open fiscal year to another open fiscal year in order to avoid recoupment of funds. This process is utilized for prior or current open fiscal years, not future fiscal years that have not been resourced.

4. VOUCHER PROCESS:
   a. Complete the enclosed excel Voucher Spreadsheet by listing all affected current or former Soldiers within one excel worksheet. AGR SRIP GUIDANCE

1. **General**: This policy prescribes eligibility criteria, procedures, and standards for administering a reenlistment/extension bonus for suitability screened (see paragraph 2.j. below) 79T production recruiters with an active RSID assigned to a Recruiting and Retention Battalion. The 79T REB is authorized IAW Title 37 U.S.C., Subchapter II and DoDI 1304.31 and is exempted from having to be within the ARH 09-026 Policy Memorandum, 12 month reenlistment/extension window in order to contract for this incentive. The ARNG authorizes this incentive in conjunction with Enclosure 6 (ARNG FY20 SRIP MATRIX) and the additional eligibility requirements listed below. Soldiers who qualify for and accept the 79T REB will agree to serve as a production recruiter with an active RSID for 3 years from the contract start date. Soldiers who are moved to another position within those three years will be subject to termination as outlined in this policy. Soldiers serving in a 9993 excess position are not eligible. The State non-privileged user is responsible for ensuring the Soldier is eligible for this incentive.

2. **Eligibility**:
   
   a. Must be in the grade of E6 or E7.
   
   b. Must have less than 13 years Active Federal Service (AFS) on contract start date.
   
   c. Must be MOSQ as a 79T.
   
   d. Must be assigned to a 79T or 00F34 position as an active production recruiter with active RSID. (Any other 00F position not authorized)
   
   e. Must agree to continue to serve as a 79T production recruiter with an active RSID for 3 years based on assignment to a valid 79T position and contract start date.
   
   f. Must be assigned to a Recruiting & Retention Battalion.
   
   g. Must not be under any Suspension of Favorable Personnel Actions (SFPA).
   
   h. Must satisfactorily perform duties as a recruiter per DA Pam 611-21, NGR 601-1, NGR 600-200.
   
   i. Must have remaining or extend for a period of service to equal or exceed a minimum of 3 years of AGR service from the contract start date. (Contract start date is the official signature date of the incentive addendum.).
   
   j. Must be fully compliant with current suitability screening standards (IAW Army Directive 2018–16 (Suitability Criteria for Military Personnel in Specified Positions) and related Strength Maintenance Operational Messages) to include having all state and federal screenings complete. Appeals/waivers of any disqualifications must be approved prior to receiving any payments.
k. Must not be under any Uniform Code of Military Justice (UCMJ) or State equivalent
process (to include Article 15 or courts-martial proceedings).

3. **Method of Payment/Bonus Amount/Term:** The 79T REB will be a three year, $12K bonus
paying $4K a year each anniversary year for “satisfactory performance” and will be managed in
the Guard Incentive Management System (GIMS). The initial payment of $4K will be processed
upon contract start and verification in Guard Incentive Management System (GIMS). Second
payment of $4K will be processed upon 1st anniversary calculated from contract start date and
recorded in GIMS. The third and final payment of $4K will be processed upon second anniversary
calculated from contract start date and record in GIMS.

4. **Agreement/Addendums:** In accordance with Title 10 and Title 37 U.S.C., DoDI 1205.21, and
DoDI 1304.31, an applicant/Soldier must enter into an agreement outlining the terms and
conditions for receiving an incentive/bonus. The agreement will explain the subject of repayment
for failing to complete the period of obligated service or other conditions of service for which the
incentive/bonus is paid. Agreements will be executed on or prior to any obligated service period
and are only valid when containing all required signatures, dates, Bonus Control Numbers (BCN)
and printed from authorized systems. The authorized systems for generating addendums is GIMS
unless written approval is granted by ARNG-HRM-I. The addendum will include the additional
Service Obligation dates and be recommended by the R&R Battalion Commander and approval by
the Human Resource Officer (HRO) within each State, Territory and District of Columbia.

5. **Funds and Taxes:** The ability to enter into a contractual agreement for an incentive/bonus or
receive payment is based upon the availability of funds; therefore, it is subject to suspension or
termination without notice. All incentive/bonuses are subject to state and federal tax codes.

6. **Restrictions:** The REB may not be paid to an enlisted member who has completed more than
20 years of active duty or service in an active status, or who will complete a total of 24 years of
service before the end of the period of active duty or active status for which the bonus is offered.

7. **Continued receipt of incentives:** A Soldier may be eligible for continued receipt of
incentive(s) when the following condition applies: Soldiers serving in a 79T production recruiting
position and promoted to an E8 Section Chief position, maintaining production recruiting status
with an active RSID may continue to receive their incentive.

8. **Suspension:** A Soldier who has a suspension of favorable personnel action (flag) initiated per
AR 600-8-2 (Suspension of Favorable Personnel Actions (Flags)) or who is suitability screening
non-compliant due to offenses committed after being fully screened with approved appeals/waivers
will not be processed for an initial or anniversary payment. Incentive payment(s) will be processed
effective on the date the suspension is lifted, provided the Soldier is eligible. Payment date of
original entitlement will not be updated to date of flag removal. Consecutive record APFT failures
or failure to meet body fat standards IAW AR 600-9, will result in the termination of incentive.

9. **Termination of incentive:** Incentive eligibility and entitlement will stop for any of the
termination reasons listed below. The Soldier will not be eligible to receive any further incentive
payments, except for Service performed before the termination date. Termination of an incentive
will not affect a Soldier’s responsibility to serve their current statutory or contractual Service
commitment. The Recruiting commander or authorized representative will initiate termination procedures and inform the State Incentive Manager (IM) when a Soldier is not in compliance with the incentive terms and conditions.

a. **Termination with recoupment:** The conditions under which termination with recoupment of incentives is warranted are prescribed in this paragraph. The effective date of the termination will be the effective date of the action. Termination of eligibility to retain an incentive and recoupment of funds already received will occur, if a Soldier:

(1) Becomes an unsatisfactory participant per AR 135-91. The termination date is the date of the first unexcused absence.

(2) Fails to participate satisfactorily per and DA PAM 611-21, NGR 601-1, NGR 600-200 in required training during the entire period of Service agreed to per the written agreement, unless the failure to participate satisfactorily was due to reasons beyond the control of the member (that is, death, injury, illness, or other impairments).

(4) Fails to maintain height/weight standards in accordance with AR 600-9, paragraph 3-12.
